## Cygnus Medical Ring-Handled Channel Brushes

We offer a wide array of nylon Ring-Handled Channel Brushes. These instrument cleaning brushes are available in many different sizes and are constructed with stainless steel twisted wire and non-abrasive nylon bristle brushes. The color-coded ring handles make it easy to select the proper brush diameter. We can also supply you with a convenient brush organizer for quick and efficient brush selection. Use with Simple2™ Enzymatic Detergent for the most effective pre-clean process.

*The Pull-Through Channel Brush can be used on all laparoscopic and cannulated stainless steel instruments.*
